

### **Envision A Movie! (grades 3-5, 6-8)**

Do you have lots of story ideas? Do you like watching movies? Do you love playing with your iPad? Then you may be a budding filmmaker! In this club, you will learn how to put your story ideas into a script, and how to shoot a scene using different camera angles to make your very own parody commercial, music video about what makes your school great, and original sketches. You will collaborate creatively with your peers, learn about close ups and continuity, and most importantly, you will have fun! And at the end, you will have short movies to share with you family and friends at a film premiere.
