

- **Introductions** – Rochelle Abrams (returning student after graduating in 1994), Chi Hang (majoring in graphic design), Pamela Baird (Director), Wallace Da Silva (junior transfer, majoring in Accounting), Rochelle Thompson (Assistant Director)
- **General feedback from you all**
 - Rochelle A – found AS to be named appropriately, getting accommodations was easy. Experience issues with furniture being moved, pushback from peers, and minimal support from faculty. Concerned about impact this might have on other students. Desire to increase awareness of accommodations and importance of them. Dispel discomfort or myths around accommodations. Difficulty with accessible stall availability. Believes this is lack of awareness in peers.
 - Wallace – difficulty with lecture engagement, difficulty with following instructions, relying on peers, but doesn't get a timely response. Struggling in class. Would like to see changes in organization of course material and instructions.
 - Rochelle A – suggesting a mentor program. Suggesting GroupMe for classes.
 - Chi - Speed bumps are too high in front of UPD.
 - Rochelle- Experience with inst. Have been easy to deal with. Dr Raleigh in Kinesiology. Faculty well versed in accommodations.
 - Pamela- Student panels, could we be more intentional and frequent with these.
