The HSO framework

Better teeth

A man and a woman are in a car

Where they laughed and talked

But the man was afraid to laugh with his teeth

And he covered his mouth most of the time

The man had yellowed teeth

Bad breath

Even had toothaches from time to time

The woman has perfect teeth

Her white shining smile

Her minty fresh breath

However, the woman start to feel uncomfortable

Starts to distrust his actions

So she said “why do you cover your mouth”

The man was ashamed

Ashamed to tell the truth

And so he wasn't paying attention to the road

The man hit a car and the woman had whiplash

And as he tried to comfort her

The smell of his breath revealed the woman

And they never saw each other again

To not make the mistake the man made
