Dear Attorney General Letitia James,

My name is _____ and I am writing to you on behalf of the Felix Family. On February 25th, 2020, Matthew Felix was killed by Nassau PD after they pursued him in unmarked vehicles. After hearing that your office would investigate the case, I had confidence that the family would be able to get a thorough and transparent investigation. Unfortunately, it has been over 6 months and many of the questions as to what happened that day are still left unanswered.

In light of this and other recent cases involving the deaths of Black people in New York, I am demanding that your office release the names of the officers involved and knowing how many shots were fired are requested. Additionally, please release all unedited footage from any dashboard, traffic or body cameras to the Felix family.

After Cuomo signed the 'Say Their Name' Reform Agenda package, I thought it would lead to investigations that provided transparency and reprieve to families. Sadly, that is not the case.

In a recent [press conference](#), you also made a promise to provide families of the victims of police shootings with more transparency. You said, "Up until now the release has been up to the discretion of local authorities, but this process has caused confusion, delays and has hampered transparency in a system that should be as open as possible... we will move as swiftly as possible so the public no longer has to wait months and months before seeing video in the hands of law enforcement."

Despite your seemingly comforting words calling to change a system to better serve victims' families, several months later, the Felix family has received little comfort and transparency. As a concerned New Yorker, I ask that you follow through with the requests above in order to give a grieving family some solace.

Thank you for taking the time to read this email.

Sincerely,
