

Exploring the Atlas of Inequality

DIGIT 100 Class Exercise: 2020-08-31 - 2020-09-02 (M - W)

Visit the [Atlas of Inequality](#) and choose one of the eleven big US cities to explore.

1. Jot down your name next to the city you're working on (and let's see if we can get 2 or 3 people to be working with each city.)
2. On the map look for heated areas that show where members of **highly different socio-economic backgrounds** might meet. Add some interesting representative location names and try to decide on what kinds of places these are.
3. Now look for non-diverse meeting points: what kinds of places seem to draw people only from the same backgrounds? Add some interesting representative location names and try to decide on what kinds of places these are.

- Boston

- Students working on this: Megan Peck, Gabbie Doster
- Highly diverse meeting points Restaurant (Row 34), The Barking Crab, Cosi, Farmer's Market (Haymarket Square Farmers Market), Wine Shop (Boston Wine Exchange), Salon/Barbershop (Boston Barber & Tattoo Co.), Newsstand (Landmark News), Residential Area (The Victor Residences Construction Project), Bar (The Greatest Bar)
