

Academics Photography

THE ASSIGNMENT

The image submitted here cannot have been submitted in a previous Regional or State contest. The image should be captured after the release date of these prompts (Dec. 3, 2018).

Your school newspaper reporting on the nationwide emphasis on teaching and learning through group work and peer-to-peer interaction in class. This approach occurs in many areas of the school, from group science experiments to English class presentations to P.E. team-building activities. To accompany an upcoming story, your editor requests a photo showcasing work in a classroom or on an academic project that involves students working together to accomplish a common goal. Your editor also stresses the importance of a journalistic caption to accompany the photo.

Of course, this contest expects that you act ethically. Those ethics mean that you don't pose moments and don't use software to deceive your audience. Consider ways that you can show -- using candid, unposed and ethical photojournalism -- the focus of the story above.
