

Guide me guide me guide me
I'm gonna need a heading
To navigate the path ahead
Become a describing captain
To decipher all the symbols
Revealing their shape, color and meaning
Revealing their shape, color and meaning

Through the clarity and the details
I imagine what the world is like
Your eyes create some telling tales
For you to guide me, I rely

I wanna hear the world I live in
So, I know what surrounds me
Give me one of those audio descriptions
Created by UniD
I'm gonna hear the world I live in
So, I know what surrounds me
I'm listening to audio descriptions
Created by UniD

Tell me tell me tell me
I'm gonna need some details
To imagine what you look like
Become a wordsmithing painter
To convey all your features
Revealing who you are
Revealing who you are

Through the clarity and the details
I imagine what the world is like
Your words echo like songs of whales
For you to tell me, I rely

I wanna hear the world I live in
So, I know what surrounds me
Give me one of those audio descriptions
Created by UniD
I'm gonna hear the world I live in
