

TREE SURVEY #4

Your Name: _____

Date: _____

DIRECTIONS: Go outside with the class. Go to YOUR TREE and quietly observe. Collect the following information...

- Write the common + **scientific names** + the name you gave to the tree. If you still don't know, use a tree identification app (PictureTHIS), the internet, your teacher, ID tags on the tree, etc.

- Common name _____
- Scientific name (Genus + Species) _____
- The name you gave it _____

- Go to YOUR TREE and make **three** observations. Has anything happened or changed with your tree since the last observation? Do you observe any seasonal changes (e.g. flowers, new growth?).

1. _____

2. _____

3. _____

- **Draw + Label** your tree below. Label at least 3 pieces of information and/or parts of the tree.
