David S. Brody

Non-fiction Media Maker

Dave Brody writes and directs space-themed non-fiction television, currently creating original documentaries for MagellanTV.com (streaming) and SpaceRip (YouTube). As an on-air guest, Dave has presented space and science stories on NBC's Today Show, CNN, BBC, Discovery, MSNBC, NPR, Fox News, and CNBC. Brody was Executive Producer at Space.com for 16 years where he built its YouTube channel VideoFromSpace, created astronomy software multimedia (Starry Night™ & Deep Space Explorer™), hosted space experts and conducted hands-on consumer tech and telescope reviews. Brody was formerly Supervising Producer of Original Programs at Syfy / USA Networks where he ran the weekly show "Inside Space," producing 192 half-hour episodes, plus specials and live space news events. Brody was Advisor to the Space Frontier Foundation and the XPrize. Dave's a Senior Associate of the Space Studies Institute, a Founding Member of the Mars Society and Life Member of National Space Society. Brody is a graduate of the New York Institute of Technology.
