Continuing Education

Happyteacher.com- Fast and EASY classes that can bump you up on the steps and lanes pay scale...For 15 credits (typical number of credits needed to bump you over a lane) cost roughly \$2,100-\$2,300. In DCSD, it would pay off in a year, as the raise will be approx. \$2,200 (I have a Masters)

Idaho State PD- <https://www.isu.edu/educationpd/faq/>

Much more cost effective, they had a \$200 (I think) sign up bonus that can be applied toward classes you sign up for within the 1st year. Typically, 15 credits cost around \$850
