THE SETUP

Wwwwwhats up, bitches? It's Pizzahut Pozzer coming at you again with another news update on the war on Rationality.

So, we got a lot to talk about this episode. I've been posting non-stop on Reddit last night while resisting the pharmajew's attempt on making me a slave, and I've pretty much become a master fighting stupidity over the years. I know all their tricks by now, and today i'm going to impart some of my wisdom to you.

First off, lets talk performance enhancement. Im not talking steroids or penis enlargement, im talking AlphaBrain. Im talkin Fish oil. Im talkin sativa. Im talkin mangosteen. Im talkin stevia. Im talkin purified water, from an Alex jones Water Filter.... These things will detoxify your brain from all the sSRIs in the water and prepare you to understand the world around you. This is how you wake up from the matrix. You gotta prepare your body, your body is a temple.

Next up, nootropics and kratom are a must. You always have to be on the prowl when fighting shills on the internet. You gotta keep those senses up, stay alert, you might need to reread a post 3 times to find the slip up that makes someone a shillcuck. You need the brainpower to make witty callbacks when people say something stupid. Its not an easy job but someones gotta do it. Who else is going to defend and police these comment sections around the world? Like an athlete, you need the best performance enhancing drugs for heightened shitposting. I buy phenibut from Russians on the internet because i work minimum wage but whatever keeps you up a week at a time is fine.

This is a but of a tangent but it has to be said. When the Fed shut down SilkRoad, it was just another ZOG tactic at play. Simple stuff: they saw my posts on 8chan, realised how powerful my posting and fact checking was, and divided the only way to unseat a superior foe was to cut off my supply lines. Now instead of buying my supplies with Gods chosen currency, Bitcoin, i have to trade Jewish debt controlled FIAT currency with brown people to get my hookups. Dr.Paul was right again. They might deprive me of my drugs, but they can't silence 8chan. Eventually, 8chan will team up with Anonymous and rise up against the feminists!

One little tip for my troll face fashy bros in Anonymous: Don't think that just because you have to go to work, that you have to keep the truth only on the 'net. A true skeptic brings the fight to real life, too. I work at pizza hut, as you all know, and believe me; That is exactly where you want to be. Everyone orders pizza, and no one is going to expect a smart person to work there so its perfect. Protecting yourself from The Enemy is important because you want to stay in The Game for as long as possible. Life is like a video game where niggers get bonus points for blasting a cap in your ass in the name of some gunned down criminal. Those chimps will get mad over anything, which is precisely why we're going to learn how to troll them in today's Pizza PranX series premiere.

Look, i'm gonna be blunt with you all. I'm a race realist. The truth is that black people have tiny brains and big muscles, and they're going to use these big muscles to fucking kill you. The secret to winning this invisible racewar is making the niggers fight each other and tire themselves out. The pro-jew media has been using a similar tactic where they direct them to our police force, but we can nullify this if we turn them against one another through funny memes. Meme magic is real, guys. And today i'm going to show you how to harness its power. So a long time ago, the vikings communicated in runes that they felt held power to them. That still exists today. What i do is when i prepare a pizza for a black, jew, or arabic family i just pull up my phone and find an appropriate meme image, then i try to copy it with the cheese and toppings before i bake the pizza. Usually i make bixnood for blacks, happy merchant for jews, and mohammad getting railed in the ass by harambe for muslims. It really trolls them hard, i've gotten complaints all the time and every time i pretend to be my manager and say we'll take care of it and it's over like that. Those cucks at buzzfeed tried to shut it down because they found my super secret code for Aryan's that I put in the "notes" section of the label, 1488. They don't know how crafty this goy can be in self-preservation of my esteemed race. Make sure your kike boss doesn't find out.

God, my co-workers are so dumb. One time two of them were talking about a recent dime-a-dozen dindu shooting and i came in and was like "i thought they already shot harambe, hahaha!" and they just looked at me like "what the fuck" like they've never heard a funny joke before. It was funny. I know it was funny, because i made the same joke online and everyone loved it. they were just trying to make it awkward because one of them is a border-hoppin' spic and the other is a guido. If it wasn't for my ancestors; these people would be stuck in huts eating beans and havin' sex with their cousin's.

-----other vlog-----

Guys, we need to talk about something important. It's something that the alt-right community has been arguing about for a while now, but I'm going to be the one that sets everyone straight. You've all been waiting for someone like me. Today, we're gonna go over same-gender aryan love and why it's not only the right thing to do, but how to defend it from (((Them))).

So to start off, The jews noticed that male affection was the only thing limiting their power as their previous use of using liberated women to suppress our people has failed. We circumvented the system in the 70's and weren't beholden to the breeders. Our small victory was eclipsed by "GRIDS", a disease that was only found in chimps until the 70's, (((coincidentally))) the same time that white men realized the tactic to end our subjugation to the jews and their Jewish Aides (women).

Cultures of all kinds exhibited same-gender loving before the jews fucked it all up. Vikings had same-gender loving; Dindu's who lived in huts and ate bugs had same-gender loving; Muslims who lived in desert rock had same-gender loving; Romans had same-gender loving; Slant-eyes had same gender-loving. Notice that all of those people and some animals (Dindu's/Muslim's) have all started to persecute natural feelings. The Jewish plot to destroy what's good and natural is imbued in their soul. Cuckxtianity and it's bigger more vicious cousin, Judaism, has destroyed our people's culture.

=====slogan for pizza guy when he says hes a tranny because all alt right ppl r trannys now

"In ancient times my ancestors defended their honor with blades and bows. Now in a shadow world of Libtard lies, I defend my race's honor with a different weapon: the spoken word. As a warrior poet, I embody the greatest of European white traditions." -me

-he gets catfished by an alt.right retard on twitter with an anime girl avatar who tells him theyre a real girl with a name like "Katsuya Rommel" and he goes along with it for like 2 months and then finds out theyre a dude and then has a bit of a meltdown and instead of admitting he got catfished, he just frantically tries to rationalize it by saying "they're basically a woman" - i.e. "traps are women" logic

jan-Today at 11:46 AM

he prints out pol greentexts about race realism and tapes them to the inside of the pizza box to redpill people

but the paper gets so greasy when he closes it
people think he just gave them a napkin

introman-Today at 11:47 AM

like he tapes it on top of the inner pizzabox

introman-Today at 11:47 AM

and the grease condenses and steams it

PrimeTime-Today at 11:48 AM

and when he makes memes out of the toppings they sort of move around in the box so its unrecognizable once it gets to the customer
