- Natural Networking within a course by Ramit Sethi made me LOVE networking. Here are some great tips - <https://www.iwillteachyoutoberich.com/how-to-build-network/>
- I also recommend checking out the book *The 2-Hour Job Search* by [Steve Dalton](#) and also podcast episodes in which he discusses this methodology. He's a former colleague of mine from Duke University Fuqua School of Business, and the very specific instructions he provides are so helpful. His book and perspective is certainly more corporate, but can be translated to the museum field.
- Glassdoor for info on company pay rates and also general reviews re: the experience of working at a certain org
