

# STLC CHECKLIST (Software Testing Life Cycle)

Complete Phase-by-Phase Checklist

# 1. REQUIREMENT ANALYSIS - CHECKLIST

#### **Activities**

|                | • | ☐ Review BRD/SRS/User Stories                 |  |  |
|----------------|---|---|--|--|
|                | • | ☐ Identify functional requirements            |  |  |
|                | • | ☐ Identify non-functional requirements        |  |  |
|                | • | ☐ Identify test dependencies                  |  |  |
|                | • | ☐ Identify risks and constraints              |  |  |
|                | • | ☐ Create Requirement Clarification Log        |  |  |
|                | • | ☐ Draft Requirement Traceability Matrix (RTM) |  |  |
|                | • | ☐ Conduct requirement walkthrough meeting     |  |  |
|                |   |   |  |  |
| Entry Criteria |   |   |  |  |
|                | • | ☐ Requirements documents available            |  |  |
|                | • | ☐ Stakeholders available for clarifications   |  |  |
|                | • | ☐ Business flows defined                      |  |  |

### **Exit Criteria**

## Testing Mint

Requirements understood and approved
 All queries resolved
 RTM draft completed

#### **Deliverables**

- Requirement Understanding Document
- Requirement Clarification Log
- □ Draft RTM
- □ Feasibility Report

# 2. TEST PLANNING - CHECKLIST

#### **Activities**

- Identify scope and objectives
- ☐ Select testing types (Functional, API, Regression, etc.)
- □ Identify automation scope
- □ Finalize tools (Selenium, Postman, JMeter, etc.)
- Prepare test effort estimation
- Define roles and responsibilities
- Define test entry/exit criteria
- Define testing schedule and milestones
- Review & baseline Test Plan

## **Entry Criteria**

# Testing Mint

- Requirement Analysis completed
- Requirements stable

☐ RTM draft ready

#### **Exit Criteria**

- □ Test Plan reviewed and approved
- Test estimation finalized
- □ Resources allocated

#### **Deliverables**

- Test Plan
- □ Estimation Sheet
- □ Resource Plan
- Schedule & Milestones
- Risk & Mitigation Plan

# 3. TEST CASE DEVELOPMENT - CHECKLIST

#### **Activities**

- Write detailed test cases
- ☐ Include positive, negative, boundary cases
- ☐ Create test data (valid, invalid, edge)

# Testing Mint

| IVIII          | ιτ  |  |  |  |  |
|----------------|---|--|--|--|--|
| •              | ☐ Review test cases internally                      |  |  |  |  |
| •              | $\square$ Automate regression tests (if applicable) |  |  |  |  |
| •              | ☐ Map test cases in RTM                             |  |  |  |  |
| Entry Criteria |   |  |  |  |  |
| •              | ☐ Approved Test Plan                                |  |  |  |  |
| •              | ☐ Stable requirements                               |  |  |  |  |
| •              | ☐ Test data sources available                       |  |  |  |  |
| Exit Criteria  |   |  |  |  |  |
| •              | ☐ 100% test cases written                           |  |  |  |  |
| •              | ☐ Review completed                                  |  |  |  |  |
| •              | ☐ Test data available                               |  |  |  |  |
| •              | □ RTM updated                                       |  |  |  |  |
| Deliverables   |   |  |  |  |  |
| •              | ☐ Test Case Document                                |  |  |  |  |
| •              | ☐ Test Data Sheet                                   |  |  |  |  |
| •              | ☐ Automated Test Scripts                            |  |  |  |  |

☐ Updated RTM

# 4. TEST ENVIRONMENT SETUP - CHECKLIST

#### **Activities**

- □ Confirm infrastructure availability
- □ Deploy build to QA environment
- ☐ Install required tools & libraries
- □ Configure DB, services, integrations
- Set user roles/permissions
- □ Perform Smoke Testing
- Ualidate environment readiness

## **Entry Criteria**

- □ Test cases ready
- Environment design provided
- □ Tools/licenses available

### **Exit Criteria**

- Environment stable
- □ Smoke Tests Passed
- □ Test data loaded

#### **Deliverables**

| • | П | <b>Environment Se</b> | tup Document   |
|---|---|-----------------------|----------------|
| • |   |                       | tup Dooutiloit |

- □ Smoke Test Report
- □ Access Control List
- Environment Readiness Checklist

## 5. TEST EXECUTION - CHECKLIST

#### **Activities**

- □ Execute manual test cases
- □ Execute automation scripts
- □ Compare actual vs expected results
- □ Log defects with priority & severity
- □ Track bug lifecycle
- □ Perform retesting
- Run regression cycles
- Update daily execution status

## **Entry Criteria**

- Environment stable
- Test cases & test data available
- □ Build deployed

#### **Exit Criteria**

- ☐ 100% test cases executed
- All critical defects fixed/closed
- □ Regression testing completed
- ☐ Test summary prepared

#### **Deliverables**

- □ Test Execution Report
- □ Defect Report
- □ Regression Test Report
- □ Updated RTM

# 6. TEST CYCLE CLOSURE - CHECKLIST

#### **Activities**

- □ Prepare Test Summary Report
- ☐ Collect test metrics (Pass %, Defect Density, Coverage)
- Document lessons learned
- □ Conduct retrospective meeting
- □ Provide QA Sign-off

## **Entry Criteria**

- ullet All test cycles completed
- ☐ Major defects resolved or deferred with approval

### **Exit Criteria**

- □ Test Closure Report reviewed & approved
- □ All artifacts archived
- □ QA Sign-off provided

## **Deliverables**

- ☐ Test Closure Report
- Lessons Learned Document
- Metrics Report
- □ QA Sign-off Email
