

Overseer Files - Accepted Teams

Congratulations to everyone who made it on the list!

Submissions are closed at this time. Keep an eye on the announcements for further submission waves.

We have a [Discord](#) now! Join it! There are exclusive posts in there!

There are a couple of things to know and go over so don't skip this.
This document serves to mainly "congratulate" those who made it, and a reference sheet to look at for team inspiration(s).

Tier Estimation:

Stated in the name itself, this is a vote the balancing team agreed on that estimates the difficulty/tier of the submission. Later on, it will be the community submitting their opinion on what tier level the fight is once testing comes around.

Tier estimates for all trainers are still tentative and prone to change.

Disclaimer:

Nothing on this list is finalized. Small changes and/or alterations may be applied by the balancing team if deemed necessary. We will message those whose teams are in need of bigger changes. We are aware of some duplicates at the moment. Those will be fixed in the future as we ship out revisions via messages.

Accepted Teams

Revised 5 Aug 2025: Message [@jz24c](#) if there are any errors. Note that links to pokepastes may be slightly out of date as some submissions may have made minor team updates (e.g. because of winning community events.)

Note: You may have submitted lore/dialogue before - if it is not up to par, the list below will still be marked as incomplete. Lore/dialogue is not a requirement, but it means we will just put your cNPC in a random route and they will not have any story/quest relevance.

Discord Tag	cNPC Name	Field	Format	Team	Tier Est.	Dialogue	Sprites	Lore	Notes
