ETS Integration Setup

<u>Step 1</u>: Email ETS releasing your data to InnoVint

From an Admin on the ETS account, please send an email to setup@etslabs.com and copy support@innovint.us with the following content listing each account:

> *Dear ETS,*
>
> *Please release our winery's ETS account data to InnoVint.*
>
> *ETS Account Name: _____*
> *Client ID (if you have it): _____*
>
> *Thank you.*

<u>Step 2</u>: ETS will respond to all of us once your data has been released

InnoVint will do the association and you'll get an email confirmation within 24 hours from InnoVint Support with instructions on how to use the feature.

If you have already released your ETS data to InnoVint at another facility, please Submit a Request through the InnoVint Support Center.

> **Subject:** *Add ETS client*
>
> **Description:** *Please add us to (Facility)'s account*
>
> > *ETS Account Name: _____*
> > *Client ID (if you have it): _____*
> >
> > *Thank you.*
