

Trenton's 60 Day Rainmaker Challenge

Accountability Document

Whats up G's. This will be the accountability document you will use to keep yourself on track and also accountable to your fellow G's to hold up your commitment to become a Rain Maker.

Upload this to the Agoge Competitions Chat at the end of every day so we can monitor your progression and help you where you need it.

Tag me when you upload this. This will help us all better understand the situation you are in and how to help you GET WHAT YOU WANT.

Show Agoge 01 who owns this campus.

What is the critical task you completed today that is moving the needle most?

- **Completed website page for client.**

What were your achievements today?

- Got the page that I needed to get done, done, but I wasn't very productive as I spent the whole day finished like 2 last sections and the footer, but it's done now and ready to be sent over it my client.

Twilight review on the day:

- It was a good day but I wasted a lot of time and the website build took way too long based of how little I had left

Wins:

- 100 burpees done
- Trained hard in the Gym
- 200 burpees
- Woke up before my clock rang
- Finished web page

Losses:

- Only sent 1 outreach message when I need to be sending 50 plus

Insights learned today and how you will apply them to hit your goal:

- If I ever feel like it's very wrong to go to sleep due to low effort, DO NOT GO TO SLEEP. I'm writing this a day later than everything above here as I fell asleep doing it, did not set a timer and now I woke up at 8:30 am instead of 6 am.
- I need to be applying so much more effort, actually try to get a paid deal and land another client by discussing it with my electrician client today(Tuesday) and sending 100 outreaches(I may have to do the student approach here to get clients, but I can imagine that it gets harder to get paid deals through this as they are expecting free work from a student)

Tomorrow's tasks:

- Send 100+ outreach messages(push for call today in each message)
- Discuss launch with my electrician client on the phone or text(preferably call) and also discuss paid deals.
- Launch both webpages to my clients website(if it's possible)
- Land a new client with a paid deal(preferably website build with half at the start and half of the payment upon delivery)

Any other thoughts you have on your current situation and what you need to work on:

- Effort, I need more effort. Not even setting the clock to make sure I wake up at 6 am is too low effort and God showed me that lesson. I have today, Wednesday and I'm guessing the entirety of Thursday to make 300\$.

That means I need to land a client today and have the sales call, agree on everything, do WWP and write the copy and get it reviewed today(I will need to use ChatGPT and Agoge chat reviews) (advanced review is a option but it would probably take too long time.

That needs to be done today. And depending on the payment plan I would also need to collect payment today or maybe on Wednesday if it's half upfront half upon delivery.

Then on Wednesday I would need to finish the website, do final adjustments of copy and also deliver the page(I should get their WP login to make things fast) and launch the page and collect payment.

Thursday I would have as a day of emergency situation where the client has not payed yet or where I have worked too slow etc or to get my client some quick results.

This is what I will need to do to make 300 \$ before/ until Thursday.

GOAL FOR TUESDAY(Today): Land a client and have the sales call agreeing to a project and get paid for the first part of the deal at the very start of the project.

I can also offer Google ads which I know abit about and have a set up fee of delivery and a possible rev share, but I need money in now so I need those direct setup fees to get paid, NOW. I may not know completely how to do it, but does it matter? NO!
