

“FLIPPING” ROOMS

PROCEDURES

1. Clean and sterilize the client's room completely after they have discharged. This includes the following:
 - a. Checking all drawers for items left behind
 - b. Washing all linens and towels
 - c. Wiping down all surfaces and furniture with disinfectant
 - d. Spraying the mattress with disinfectant
 - e. Spraying the room with disinfectant
 - f. Sweeping and mopping the entire floor
 - g. Making the bed with clean linens
 - h. Disconnecting the television from the Internet (if it is a smart television).
 - i. Note: It should not be connected to the Internet in the first place.

FAQ

1. What do I do if I'm unable to flip a room immediately?
 - a. Be patient and wait for some time to become available. The room often does not need to be flipped right away.
