

## **Funding Resources**

Here are all the links you need to get resourceful with your funding.

**Please only borrow what you can and are happy to repay.** And if you feel this direction is appropriate for you. We are not suggesting or encouraging you to take on credit or borrow money. That is your choice alone to make.

We are simply providing a list of useful resources that many of our clients have used.

Please understand, any agreements made between yourself and a lender are not something we at Sell What You Know are party to, nor can assist with.

**Good luck on your journey!**
