Doodle Chibis:

- These are chibis, so the canvas size will be small. Usually under 1000x1000 in size.
- The brush used for these chibis is a sketchy pencil, so some details on intricate designs may be simplified due to the line thickness.
- Couples pieces are available for this commission type.
- These do not come with a background but can upon request come with a white border.

Price - $8 per character / $11 for complex characters

Custom designs:

- Can be on base or free hand. **See below for examples of designs**.
- Off-base customs are the original price of the style +$10. So for example, a normal style flat custom would be priced at $35. A flat chibi custom would be $25.
- I will not make customs based on existing IP (ponifications). No hate against them, but I don't enjoy making them. Things such as nextgen, MLP show character redesigns, or ponies inspired by existing MLP show characters (i.e. kinsonas), are totally acceptable.
- Custom form for orders can be found below (pictures allowed and encouraged if you want to provide them).
