Our task is to investigate what this suffix means so that we can use this knowledge in our

reading and writing. :-)

WOW!! Destiny's beaten you to it but we need to be clear in its meaning, so...how do we describe it clearly and give examples! It means a state of being. It's the quality of something...

e.g. Friendship means the quality of being a friend or the state of being in a friendship.
friendship is all about being a friend
