

BUDGETBALANCER.COM

Turn *Pennies Into Pounds* With The Budget Balancer App.

Easy ways to BUDGET & SAVE during these uncertain times.

[Download Now](#)

💰 There's no turning away - we're *all* seeing it. 🙄

As inflation is on the rise, it's impossible to turn a blind eye to the increasing costs of groceries, gas, services and everything else in between that is essential to our day to day lives. 📈

So, our cost of living has gone up, yet the paycheck *hasn't*. That extra cash you were managing to tuck away into savings every month just a *few* months ago has now become impossible to continue doing.

Or Has It?

Recently, I went to dinner with a friend and as the night was wrapping up, she was quite perplexed when I passed up on my usual espresso martini night cap (she *knows* how much I love those!) ☕🍷

After telling her I've been having to "pinch the pennies" 🤔 a little more lately, I was shocked when she mentioned the [Budget Balancer](#) app she's been using for a couple of months now.

How Had I Not Heard of This?

This app is truly a budgeting *genius*. With so many different money saving features all conveniently in one place directly on your phone. My friend was ecstatic about the \$150 she saved last month just from using the app alone. ➡️📱💰

A few features of the [**Budget Balancer**](#) app include:

➡️ **Weekly Income - Expenses Calculator:** *Easily punch in what you're bringing in vs. expenses and let it do the math for you!*

💰 **Price Comparisons:** *See the difference in prices for products and stores near you.*

🛒 **Daily Deals Around You:** *Groceries, gas, apparel, restaurants, and more! They find all the best bargains.*

💡 **Tips And Tricks:** *Advice from some of our favorite money saving experts on steps you can take to stretch that dollar.*

📄 **Monthly Coupons:** *For online and local businesses all around you!*

📊 **Store Cost - Restaurant Cost Price Breakdowns:** *This simple calculator breaks down any and every food/beverage cost for you.*

🔔 **Customized Alerts:** *Get discount alerts for places or products that are the most beneficial to you - you won't miss anything!*

The one time payment of \$5.99 is a *steal* considering what you'll save in the long-run! That's the cost of just one morning Starbucks Frappuccino!

Tap "Download Now" to get the app today so you can stop worrying and start saving again - and maybe even have a little extra for that after dinner martini! 🍸
