Let's imagine that you're opening a museum or art gallery. How will you deal with visitors having smartphones and social media in your space?

1. Describe the type of museum or gallery you'd create and what you'd exhibit.	2. What phone or social media rules and/or policies would you set up for visitors to your space?
3. How do those rules and/or policies benefit your museum or gallery and its visitors?	4. If you were to design a part of your museum or gallery meant to be shared on social media, what would it look like?
