## Previewing Options

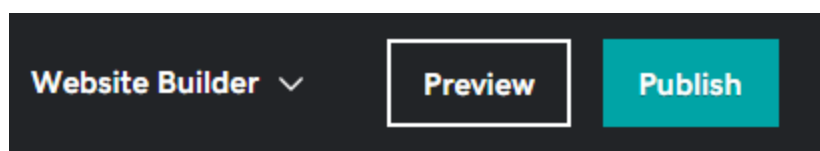

In order to preview different options, screen sizes, or on various devices, first log [into Google Sites](#) and Click the “Website” tab next to “Dashboard”.

This allows you to view your site from the perspective of a Large Screen like a computer and a smaller screen such as a tablet or phone.

## Previewing from Editor Mode

Clicking on the “Preview” Button at the top left of the screen allows for viewing the site before potentially publishing it or changing things.

Leave preview mode to go back to editing mode through clicking on the “Edit Site” Button on the left-hand side of the screen.
