Introduction (Segoe UI, 11pt Bold)

Introduction consists of (in sequence) general background, state of the art as the basis for the scientific novelty statement of the article, scientific novelty statement, and research problem or hypothesis. In the end, introduction should mention the purpose of article review. Literature review is not allowed in the scientific article format, so it is replaced by the state of the art to prove the novelty of the article..

Research Methods

Research Methods is implemented to solve problems, including analytical method. The method used to solve the research problems is described in this section.

Results and Discussion

This section consists of results and discussion. Every finding should be supported by sufficient data. Then, research findings should be able to answer the research question or hypothesis stated earlier in the introduction.

Conclusion

Conclusion states the answer of the hypothesis and/or research objective or scientific finding. Conclusion is not the repetition of findings and discussion, but it is the summary of findings as expected in the objective or hypothesis. If necessary, conclusion

can also be ended with the next idea to be implemented to the study.

Acknowledgement

Acknowledgement are primarily addressed to research funders or donors. Acknowledgement can also be dedicated to people who contribute in the study.

References

All references used in the article should be listed in the References section. References should contain reference literature originating from primary sources (scientific journals at least 80% of the entire references) published in the last 10 (ten) years. Each article contains at least 10 (ten) references.

It is better to write the reference system in the article and in the references section using the reference management programs such as Mendeley. The writing format used in *Otoritas: Jurnal Ilmu Pemerintahan* is APA 7th Edition (American Psychological Association).
