| <p><b>Study tour</b> was organized from 18/12/2023 to 20/12/2023 to B.Sc. 5<sup>th</sup> semester students to Shiroda, Maharashtra and nearby places to study plant taxonomy. The tour was organized for B.Sc. final year students. Dr. Y. B. Dalvi and Mrs. Rahul Sawant accompanied them. Shiroda comes in Sindhudurga district, Konkan Maharashtra. Students departed from Belgaum at 5am and reached Shiroda by 8am. After having breakfast students went for trekking. During that students came across different lower and advanced plant species, found species were collected for identification study. On the first day night different activities were organized for students like quiz competitions, Group discussions and culture activities during the stay in which students participated enthusiastically. On the next day morning students were taken to beach to enjoy. After coming back collected plant species were identified by the students. On 20<sup>th</sup> Dec. all of them packed their bags for return journey. While returning they also studied about biodiversity in Konkan region. This experience was adventurous and enthusiastic for students to learn about environment, ecology, biodiversity and taxonomy of plants.</p> |  |
