

Coordinator's Report 2024

The committee has been doing an excellent job of running the Branch without any great input from me, other than my occasional acting as mentor and comedic foil for Ross and Bryan.

Branch funds remain in a healthy state, helped by income from various Branch fundraising events. We still support Wellington Free Ambulance, just as we have done for over 30 years. For almost 30 years the Branch has also provided Christmas presents to the Muscular Dystrophy children across Wellington, Wairarapa, Hawkes Bay, Taranaki, and Manawatu regions. However, due to various aggravating factors over the last few years, we are now limiting our MDA Ride to delivering the presents just to the MD children with the wider local area between Kapiti and Masterton.

Branch income continues to fund suppers for AGM and Christmas meetings, as well as the extensive range of prizes in the Christmas Raffle, while the Sherriff's fund subsidises other social events such as go-carting.

Any Club like Ulysses owes its success to two factors; the work done by the committee and the participation of members in the meetings and events that are organised for them. As Ulyssians we have a mutual interest in motorcycling, but it is the social aspects of membership that make for a successful Branch.

Your committee works very well together, has fun, and keeps things interesting within the Branch. They keep things running smoothly, and along with their partners and various members have provided their time and effort towards making various fundraising events successful. Thank you all for your efforts, it is greatly appreciated.

Jim
