

Accreditation

The Board of Education believes its primary responsibility is to provide leadership in the area of student achievement. To foster greater accountability and enhance improvement in student achievement, the Board will enter into an accreditation contract with the State Board of Education regarding district accreditation and shall accredit the schools within the district.

District accreditation

The accreditation contract will bind the Board to manage the district and its schools to meet certain standards, goals, and requirements over the term of the contract, in accordance with the Education Accountability Act of 2009 and applicable State Board of Education rules.

In conjunction with accreditation, the Board is committed to adopting academic standards for student learning, achievement performance levels, systems for measuring student achievement, and methods for improving student achievement.

School accreditation

While the state accredits the district, the Board accredits the schools within the district, including district charter schools. The Board directs the superintendent to develop a school accreditation process for the Board's input and approval. Such process will be developed in accordance with the Education Accountability Act of 2009.

Pursuant to the Board's constitutional and statutory authority to control instruction in its schools and determine the allocation of district resources, the Board will review and approve all school plans, regardless of whether the plan is a performance, improvement, priority improvement or turnaround plan. Each school plan will be submitted to the Colorado Department of Education in accordance with the timelines prescribed by applicable State Board of Education rules.
