

REVISED:

Subject Line: Project? Linda

Hi Linda,

It looks like you are trying to attract more attention because of the more frequent posts on Instagram and Facebook.

Top clinics like Playwell Brooklyn used fascinations in their captions from April to June, resulting in a doubling of likes per post. The complementary colors distinguish your posts and with some professional writing, this engagement will translate to customers for your occupational therapists.

I created a free sample; could you take a look?
