

SAN LUIS VALLEY REGIONAL MEDICAL DIRECTOR

Via Zoom Meeting

Follow up meeting for CQI

San Luis Valley Imagetrend Reporting Outline May 9, 2023

11 a.m. - Report Writer Recap

- First thoughts utilizing the program
- Questions & Answers
- Troubleshooting errors

11:15 a.m. - Group Reports: "LS_Transport_From_Scene"

- Benchmarking measures - review the SLV Benchmarks excel output
- Open your shared SLV_QA_QI folder member "LS_Transport_From_Scene"
 - o Columns show "Rpt #" now to identify the #1 is your numerator for the measure and #2 is the denominator for the measure
 - o Criteria panel shows your footnotes and becomes the base of incidents to report
 - And v.s. Or
- Report overview
 - o Select an Agency
 - o Select Date Range
 - o Generate report
 - o Output is "No Lights and Sirens transports" for the agency in Report 1 and the "All transports" number in Report 2
 - o Calculation and tabulation is secondary step - done manually or once exported to Excel or Google Sheets

11:50 a.m. Questions about the reporting demonstrations, navigation, permissions

11:55 a.m. Next steps

- Submit other reports within SLV_QA_QI - these are grouped reports that are more complex but follow the same logic of San Luis Valley incidents grouped by agency, according to “benchmark” measures
- Export the output to a “.csv” file and use Excel to combine it with reports from other sources
- Assess need for a follow-up meeting to cover more in-depth group reports and their changes to existing shared reports
