

Lassiter families,

Please find below a list of resources to assist during the winter storm and record snowfall. Please call before going anywhere to ensure the organization is open. Stay safe!

Warming centers are places you can stay during the day but can not spend the night. Good option for NTI days if you don't have internet or lose power or just need somewhere warm during the day. If you do need to stay the night somewhere, you can go to one of the **shelters** in the area.
