# Chapter 1: Introduction

**Hello everyone ! today we gonna talk about regarding the warns and This is the why i got warned and banned from EToH server,**

**Hey, it me PigeonPedia (SUSUSSAMONGUS) or call me dababy sussy amogus school or just call me “dsas”, i tell you guys why i got warned, heres why**

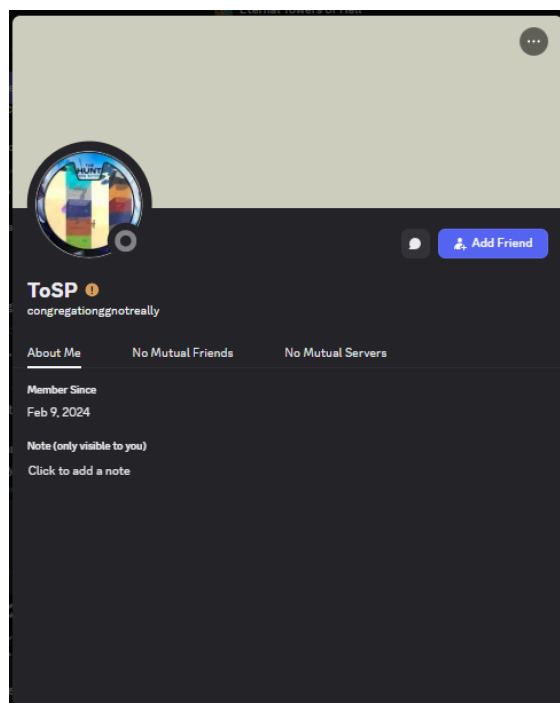

## Chapter 2: The warns

**Lets we talking about the first warn:**

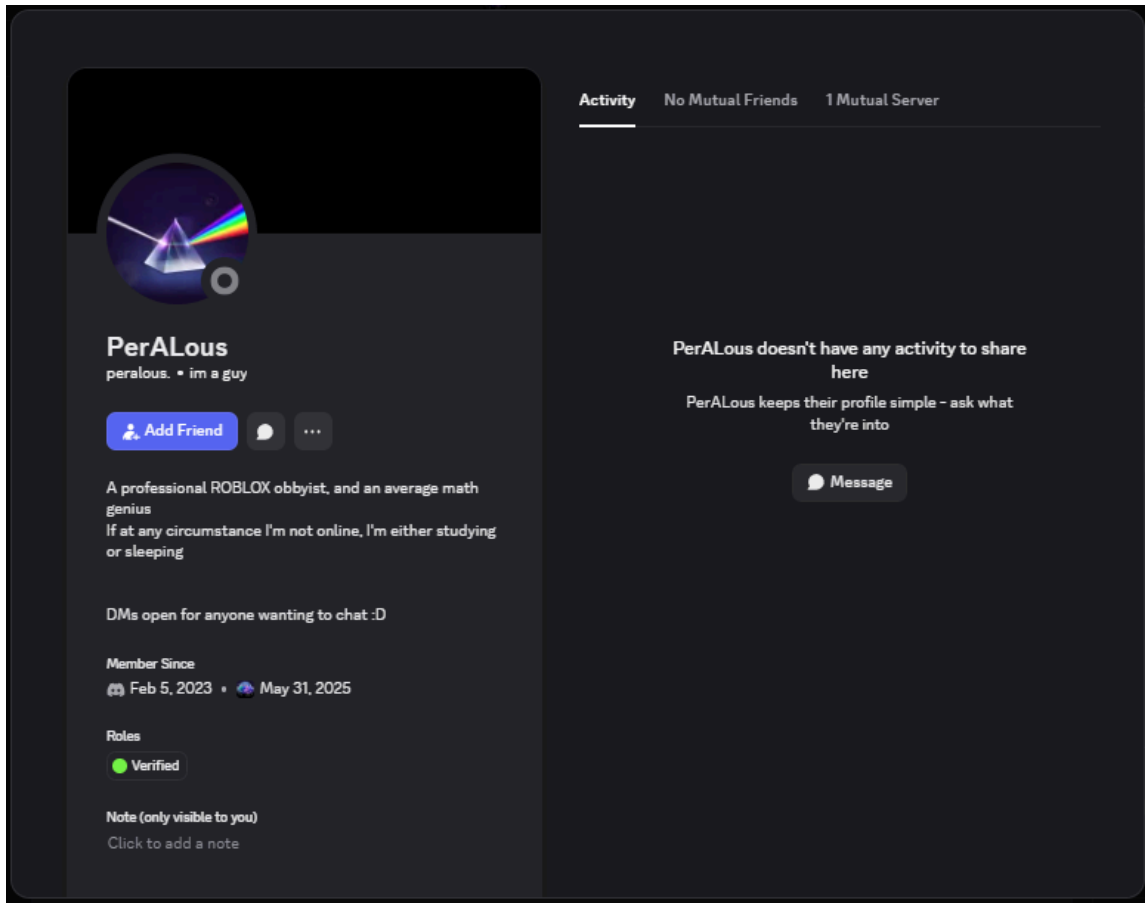

**Brainrot textwall, i got warned for this because i posting [this post](#) and this guy ping tintom and he warn me for that**

**Here the guy who make mods warn me:**

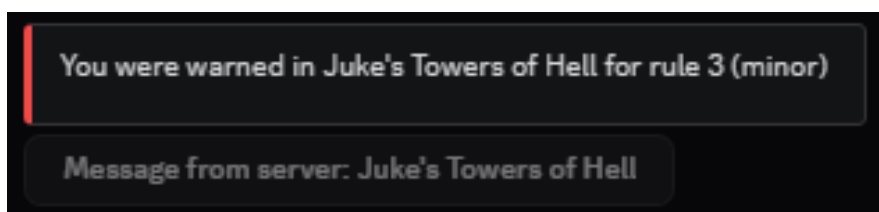

## And also

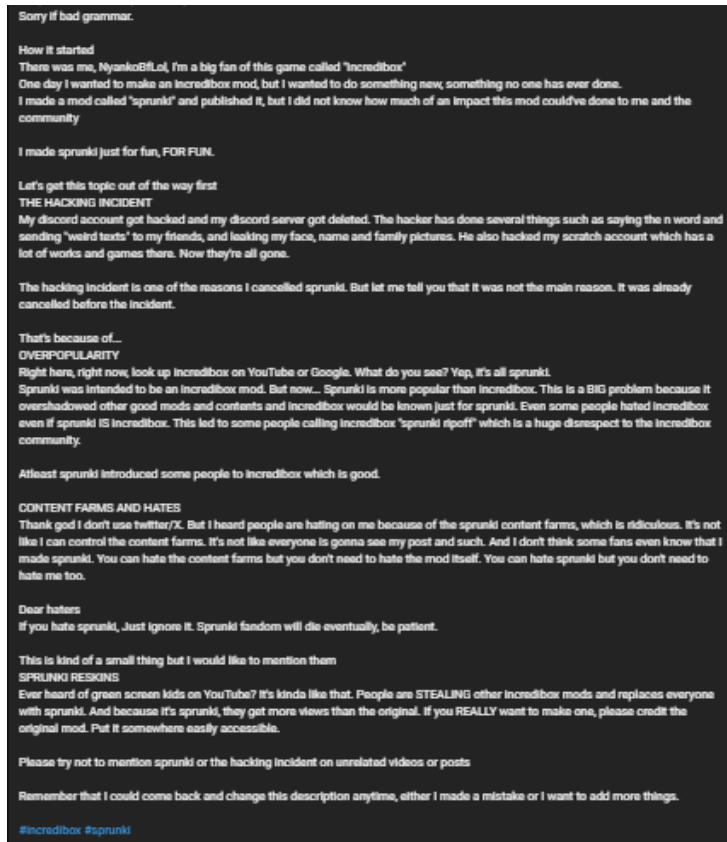

**And yes, we talking about brainrot stuff, skibidi toilet and the dark truth about my sister (drawkcableps), and then after a few minutes of this conversation and then i sending a guide about “how to summon the grimace ohio skibidi toilet” because everybody talking about brainrot stuff back then and then congregatinggnotreally calling mods to warn me and he was happy after i got warned.**

**And now is time for the second warn:**

**Rule 3, this time im not spamming or send a textwall, i sending some useful information, about the the creator of sprunki (NyankoBfLol), because we talking about [sprunki situation and his creator](#) with snick snack here's what i send:**

Sorry if bad grammar.

**How it started**  
There was me, NyankoBfLol, I'm a big fan of this game called "Incredibox"  
One day I wanted to make an Incredibox mod, but I wanted to do something new, something no one has ever done.  
I made a mod called "sprunki" and published it, but I did not know how much of an impact this mod could've done to me and the community

I made sprunki just for fun, FOR FUN.

Let's get this topic out of the way first  
**THE HACKING INCIDENT**  
My discord account got hacked and my discord server got deleted. The hacker has done several things such as saying the n word and sending "weird texts" to my friends, and leaking my face, name and family pictures. He also hacked my scratch account which has a lot of works and games there. Now they're all gone.

The hacking incident is one of the reasons I cancelled sprunki. But let me tell you that it was not the main reason. It was already cancelled before the incident.

That's because of...  
**OVERPOPULARITY**  
Right here, right now, look up Incredibox on YouTube or Google. What do you see? Yep, it's all sprunki.  
Sprunki was intended to be an Incredibox mod. But now... Sprunki is more popular than Incredibox. This is a BIG problem because it overshadowed other good mods and contents and Incredibox would be known just for sprunki. Even some people hated Incredibox even if sprunki IS Incredibox. This led to some people calling Incredibox "sprunki spoff" which is a huge disrespect to the Incredibox community.

Atleast sprunki introduced some people to Incredibox which is good.

**CONTENT FARMS AND HATES**  
Thank god I don't use twitter/X. But I heard people are hating on me because of the sprunki content farms, which is ridiculous. It's not like I can control the content farms. It's not like everyone is gonna see my post and such. And I don't think some fans even know that I made sprunki. You can hate the content farms but you don't need to hate the mod itself. You can hate sprunki but you don't need to hate me too.

Dear haters  
If you hate sprunki, just ignore it. Sprunki fandom will die eventually, be patient.

This is kind of a small thing but I would like to mention them  
**SPRUNKI RESKINS**  
Ever heard of green screen kids on YouTube? It's kinda like that. People are STEALING other Incredibox mods and replaces everyone with sprunki. And because it's sprunki, they get more views than the original. If you REALLY want to make one, please credit the original mod. Put it somewhere easily accessible.

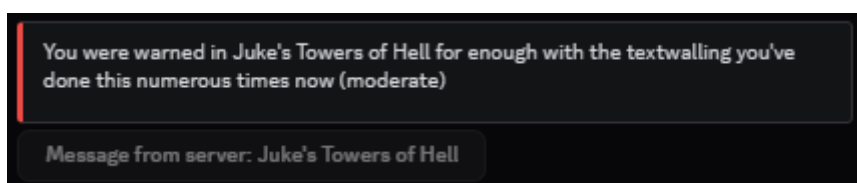

Please try not to mention sprunki or the hacking incident on unrelated videos or posts

Remember that I could come back and change this description anytime, either I made a mistake or I want to add more things.

#Incredibox #sprunki

**Is the description of about sprunki and the creator got doxxed, but silas think its a textwall and he warn me for rule 3, but these information is useful so this information not considered a textwall, because textwall is a huge amount of text that contains so many useless information.**

**Next we talking about the third warn:**

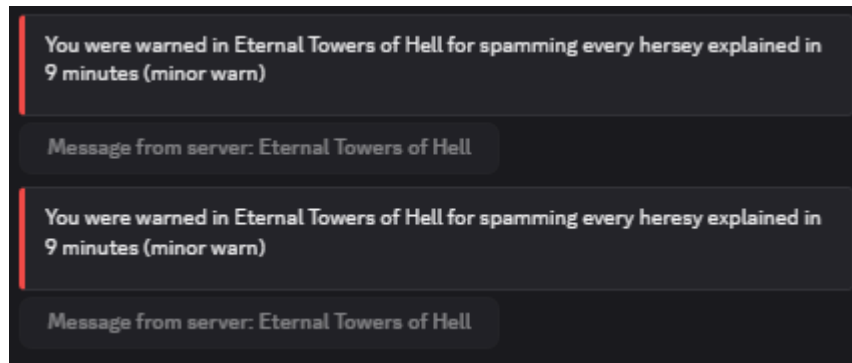

You were warned in Juke's Towers of Hell for enough with the textwalling you've done this numerous times now (moderate)

Message from server: Juke's Towers of Hell

**“enough with the textwalling you've done this numerous times now”, im trying find deeper about the teaser of**

**biotech genesis, but this time im find out about 4th biotch genesis teaser, and i trying to extract the text from the 4th teaser of biotech genesis but, im using google lens to extract, and the result is a textwall, im not meant to textwalling but the google lens is. The result is the moderate warn and got muted.**

**Now we talking about 4th warn:**

**spamming [every heresy explained in 9 minutes](#),this warn is by accident, this time i have a conservation with gammator, talking about an big update on EToH**

**But i use discord on my phone since i was is the school, but sometimes my phone is lagging a lot, causing my discord is broken and there is a ghost touch on my phone and also my phone is lagging that can delay my phone touch that can make a sending a same message all at once which it causing me to spamming, i'm not meant to spamming, but because of phone lag and input delay, my phone is spamming on itself, which it causing me to got warned for spamming.**

**And now the 5th warn and the ban:**

You were warned in Eternal Towers of Hell for Rule 8 (minor)

Message from server: Eternal Towers of Hell

You were banned in Eternal Towers of Hell for 6 minutes. | infractions

**Rule 8, yes im just talking to sarchasm about oc, and what he must do if someone stealing the oc, i'm not meant to be annoying but my sister is make me annoying, but instead he block me, he tell the mods to warn me and banned me for warn limit.**

## **Chapter 3: The Conclusions**

**I'm **ABSOLUTELY NOT** meant to be immature and annoying, i'm just want to show you something good and interesting things in EToH, make a funny jokes that you like, and make a peak towers, cool mechanics and even CCOs,**

**But because of my parents shield me from internet, my older brother and sister also shield me from internet too by set a screen time limit and locking my phone, my younger sister stole my smart tv etc, and learn arabic is mandatory, My future project development like making ToCaV winroom with my friends (miantoz1980, memmedli, neil\_f, karapet, etc), Tower of Norby's and Narby's Revenge, an unnamed day and night tower with catastrophic difficulty that intended for world 2 finale, and even our epic and liberal EToH fangame called "**Untitled Tower Game (UTG)**". are got disrupted and even cancelled and discontinued like (for example "**Tower of Abyss to Sky (ToATS)**" an intense difficulty tower that intended for zone 1 subrealm) because**

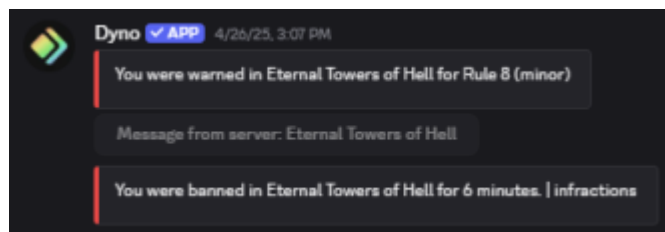

**of my family restrict me and sheltered me from internet which is causing me to get in hiatus and inactivity, my sister causing me to be immature and annoying, forcing me and my sister to use Youtube Kids which it makes me cringy, dumber, annoying, immature, and brainrotted. My sister also stole my huge jelly corgi on Pet Simulator 99 because my mom told my sister to do that and my sister sent me so many death threats to me. And the worst thing is my sister and family keeps making me kms. She also uses my phone because her phone is locked by my parents, she also tries to delete all of my accounts including my Roblox account, everytime I use my older Google account, my parents are totalitarian, she also stole my smart TV, and watches a cringe and brainrot content on it and my mom is very responsible on screen time limit, internet access restrictions, forced digital detox as a punishment, and online gatekeeping, that means my mom is so strict and too controlling**

## **Chapter 4: The Final Message**

**Hi everyone it's me Dababy Sussy Amogus School the mods who warn and ban me is most likely Novaskaii  
And this is my final message to Novaskaii :**

**you have betrayed me by warning me and permanently banning me from EToH server, because I'm posting an image that should not offend and talking about something that absolutely not controversial or anything ? and I got warned for RULE 8 ?!?!?!? , I'm talking about someone OC or something, and then you have warned me for a copyright**

**reason, and then you have ban me for "6 warns" and yes these previous warn occur because or accident, You has giving me an epic stuff access, and then you say "thank you !" , and you has say yes when i give you a question "is that poppy playtime oc ?" and then you reply me with saying yes, and then 1 month later you YOU WARNED ME FOR RULE 8 AND BANNED ME FOR 6 WARNS !, How about Karapet, he talking about CCOs everyday and he got banned for a while y his response and he got unbanned, and because other people is act like that BUT THEY DIDNT, GOT WARNED OR BANNED, BUT YOU make me discontinuing all of my project and destroy my productivity and MY LIFE ! , I will finish and submit my ToCaV winroom but i cant, because of the PERMA BAN !!!**

**If i got unbanned from EToH server, i will continue all of my project:**

- (1) ToCaV winroom that is larger than ring 1 and FR**
- (2) Tower of Norby's and Narby's Revenge**
- (3) an unnamed day and night tower with catastrophic difficulty that intended for world 2 finale**
- (4) our epic and liberal EToH fangame called "Untitled Tower Game (UTG)"**

**That's for the information regarding the warns, if you want more information, please contact me (two\_steps\_ahead) or**
