Cookies and Other Technologies

Our website, services, email communications, and advertisements may use "cookies" and other technologies such as "pixel tags" and "click-through URLs".

Cookies: We use the following types of cookies:

1. Essential cookies: These are necessary for the website to function properly.
2. Analytical/performance cookies: These allow us to recognize and count the number of visitors and see how visitors move around our website.
3. Functionality cookies: These are used to recognize you when you return to our website.

You can disable cookies in your browser settings, but please note that certain features on our website may not be available as a result.

Pixel tags: We may use small graphic images called pixel tags in our email communications to determine if an email has been opened and which links have been clicked. This helps us measure the effectiveness of our communications.
