FGol(Fake Govt. of India), FGoT(Fake Govt. of Telangana) are proven twin cybercriminal organizations, owing to the 2 FIRs, (i)0053/2014@KPHB PS(ii)0006/2018@Cybercrimes PS, by the Cyberabad police@Telangana. They are the first CCOs of the kind-of online fake governments in India. They came to be in vogue in the second decade of the current millennium. FGolFGoT involve big data cybercrimes of degree 1,20,000 units of multifarious, India-abusive cybercrimes. Nearly 2500 online registrants of multifarious academic streams were cybercriminally influenced under the sway of the FGolFGoT. Two FIRs are against (i)State Emblem of India (Prohibition of Improper Use) Act 2005 (SEIPIUA) violation (ii)Identity Theft, IT Act2000-2008, Section 66-C violation owing to FGolFGoT. *Adaptive management* of higher education academics became challenged owing to the ill-checked FGolFGoT.

The FGoIFGoT cybercrimes have opened new vistas for research among the cyberpolicingthinktank led by Peoples' Governance Forum(PGF), a registered N.G.O.@Hyderabad, of likeminded communities such as researchers, computer teachers/students. We, a cyberpolicingthinktank@PGF, aimed at defusing the FGoIFGoT and the cybercriminal legacy thereof for secure digital India. Wayback machine, a web robot software, is used for cyberforensics w.r.t. the FGoIFGoT. Our cyberpolicing R&D work is to defuse the cybercriminal legacy by cyberpolicing legacy, by public awareness generation methodologies such as website development methodology, social software methodology and allied cyberpolicing community development methodologies. In the sequel, recurrence of the prevalence and usage of FGoIFGoT-kind-of cybercrimes is preventively checked. PGF formulated the guidelines to the organizations and the government for the defusion of the FGoIFGoT that plagued the organizational settings in Telangana.

We present how PGF has endeavored for cyberpolicing solutions drive by development of national virtues among multifarious streams of students in Telangana academics. PGF developed a cyberpolicing orientation and setting for the relevant organizational stakeholders in Telangana for defusing FGoIFGoT.

Keywords: Cyberlaws, Cyberforensics, Cyberethics, Cyberpolicing.
