Statement from Rep. Litesa E. Wallace regarding new ED of DPI

“Although there was no clear application, submission, or selection process for individuals who were interested in the position of Executive Director of the Democratic Party of Illinois to participate in, an individual has been selected. I would like to wish my colleague Rep. Christian Mitchell all the best in his new role as Executive Director of our party. I will continue efforts to move our party forward, which means ridding ourselves of the issues of power and oppression inherent to systemic racism and sexism, even as we work to elect candidates that value the rights of all”.
