As co-founder and organizer of the Ontario Mosaic Artists (OMA) group, I trust I have the required qualifications to assist Mosaic Artists of Canada in meeting its goals over the next 2 years. The idea of OMA was developed in the basement of my home back in 2019, with other mosaic artists who like me, felt the need to increase the visibility of mosaic art, to strengthen its appreciation as an artform, and more importantly, to grow the community within the province. Since those first zoom meetings the OMA committee has organized two very successful exhibits on and is in the process of planning its next show in 2024. The group's shows have been described as some of the best offered by the gallery.

Having been a mosaic artist for over 15 years and being a member of the OMA committee, I have been able to hone my skills as an artist, but also as a communicator, project manager, and workshop facilitator. I have great attention to detail, and computer, analytical, and organizational skills.

I strongly support the need for a national mosaic association. The mosaic artist community is small, but even in this vast country, MAC has the potential to bring us together.
