

Academic Update

Eighth Grade

For the Week of: September 15th

Math Ms. Johnson	We are starting to work with exponents and shortcuts that apply to exponents so we can learn to be efficient mathematicians. We'll be playing Bingo as part of our review this week.
Science Mrs. L Olson	
LA/Reading Ms. Farrell-Poncelet	Students will be working on strengthening grammar principles. They will adding to their grammar menus and beginning their family paragraphs for their autobiographies. They will continue their group research projects for <i>The Outsiders</i> .
Social Studies Mr. Steele	Test over westward expansion
8th Science Mrs. Olson-VanWinkle	This week we will continue improving our lab techniques by working through a gummy bear lab to determine how different density liquids affect the bear's size over time. Mon-Tues: Conduct gummy bear lab. Wed-Thurs: Finalize gummy bear data and analyze the results. Fri: Draw conclusions and display data in graph.
