

Fubar 2024 CALL for ONLINE Glitch Art EVENTS

[Fubar](#) is an annual program focused on electronic experiments and research in contemporary error-themed digital art theory and practice. Fauxbar is a drop-in self-organizing online part of Fubar, for those of us who can't or won't travel, or for those who prefer to do it online.

In 2024 our topic is focused on **ARCHIVING practices** – and particularly **their pitfalls and failures** in DIY New Media Art and Culture. This call for events is open to Fauxbar proposals for the festival ONLINE program:

- group **meetups, talks, discussions**
- first-time or new **presentations, performances**
- **workshops or collaborations** related to glitch art
- **work in progress or test events**
- etc.

Fauxbar applications up to: **SEP 30 2024**

Fauxbar selection announcement: on a rolling basis

Possible online event date: any time EXCEPT first half of OCT 2024

All open calls and other upcoming announcements are available via [THE PROGRAM OUTLINE](#).

#GUIDELINES

- We are primarily interested in applications based on and around FLOSS, accessible hardware and in line with the copyleft ethos.
- Although we don't ask for a fully new or custom event, please try to somehow reflect our yearly topic of FAILED ARCHIVES and/or FAILURES in ARCHIVING.
- This call is only open to ONLINE events; OFFLINE events are to be applied to the [Festival call](#)

#SUPPORT

- Artist proposals we can accept to support will be remunerated by a microgrant (~50€) in arrangement with the artists (i.e. invested in their fee, a service, some assistance, assets, etc.).
- Applicants can get support in forming and co-organizing their event within the platform of #fubar_expo.

#INFORMING

- Authors of selected applications will be notified on a rolling basis - please apply as early as you can.
- For up-to-date information, please subscribe to our [NEWSLETTER](#).
