Curated Notes

How your learning could be personalized ?

- Listen to my personal needs
- Keep in mind who you are teaching to and adapt
- Learn the passions of your students and differentiate to speak to the needs of the students.
- Providing that spectrum of opportunities to the kids to get them more engaged in their learning
- Listen to my interests are and integrate them into to the courses.
- Let the teachers know what are our interests.

Recommendations

- The interface you use is so important that is easily navigatable
- Create a space where you can bring the whole class together... ie forum chat area
- Les appels conférences / vidéoconférences sont importantes pour le regrouper et former une communauté d'apprenantes et d'apprenants.
- ONline learning, is a new way of learning

Student Feedback

- We need to support online teachers - ie workload
- Create a community of teachers where they can share ideas and best practices.
- I you want to start an online learning program, start small with a few courses
- Interdisciplinary projects is a good way to start
- Gives kids space outside the class to extend their community
- Get the community involved in helping you achieve your goals and their goals
- If there are no community there is no learning
- We need to find ways to create theses communities - through ie global connections
- It's those relationships that you build that create....

L'importance de la communauté à l'extérieur de la salle de classe (en ligne)

- In the classroom, I learn a lot from the textbook, but outside the classroom, you start learning what impassions you. You get involved in thing that matter for you. It's amazing what you can learn outside the classroom. You can engage with young people that share the same passions you share. We can have an immediate impact of what you learn and apply in the real world.

How is online learning is preparing you to the real world learning

- Online - when exposed to the online courses, you are better prepared for the real world than the regular classroom
- Online, you need to motivate yourself, you need to learn to moderate yourself online, you are better prepared for the world tomorrow
- The traditional System is taking away skills from students, whereas online learning is give students opportunities to shine.
- Online PBL - you are on yourself and you have to learn to succeed.

For a project, I can incorporate many outcomes of different courses

Engagement - how are your classmates...

- TLA (Traditional Learning Academy)...
-

What drives you to learn ?

It's so much work to being engaged. It's hard to be involved when you have to have to be assessed on so many things that society says is important.

What you assess must matter to those you asses.

It's all about the grades and

Proving that you know the stuff in other ways than...
