Dr. KellyAnn Bone Broth Teaster Product Launch

Written by Dani Deneau

9/28/2022

SUBJECT:

1: Most bone broth supplements don't have THIS secret ingredient...

2: Ready to take your gut health to the next level?

Pre-Header:

{{customer.first_name}}, there's been a quiet rustling in the world of gut health lately...

People are waking up to the fact that gut health matters. The brain fog, the stubborn weight gain, the embarrassing gas... something's gotta give, and it doesn't have to be your day-to-day routine.

And if you've tried my other bone broth powders, you already know all the incredible things it can do for you - especially when it comes to healing your gut.

But what if I were to tell you I discovered a gut-purifying powerfood that *amplifies* the benefits of what bone broth can do for you?

That's right — you can actually take your gut health to a whole other level!

See, there's a new ingredient I discovered that isn't in other bone broth supplements. In fact, this has flown under the radar of most doctors and supplements companies, but my team and I have been able to bring it back to the States and turn it into something that will benefit YOU.

I've seen other bone broth supplements that offer the basics — you know, ingredients like salt, vegetables, and maybe a few herbs or spices. But none have THIS revolutionary element.

An element so incredibly effective, that it was tested on **50 people between the ages of 30-70**. After 2 weeks of taking this ingredient to see if their digestive issues would improve, many of them were amazed!

Every one of the study participants was ecstatic to report:

- Significant improvement in their bowel consistency
- Significant improvement in their bowel frequency

And that's just the beginning!

Yet most people have never even heard about this ingredient...

What am I talking about?

I'm talking about an ingredient so exclusive, it's grown only in the cleanest, northeastern island of Japan. This functional food ingredient has a ground-breaking impact on people dealing with digestion-related problems - including embarrassing gas, uncomfortable dining experiences, and awkward conversations.

A cutting-edge proprietary extract that, once you try it, you'll never want to go back!

Not only can this support your overall immune and respiratory system, it can help reverse the *disaster* that a dysfunctional gut can bring.

Look, your internal garden (also known as your gut microbiome) is being attacked on a daily. **Stress, processed foods, antibiotics, and social stigmas** can make it hard for you to enjoy good health.

That's why I was determined to create a bone broth supplement that's the first of its kind.

This **revolutionary, ethically harvested, clinically proven** ingredient is going to change the way you see gut health **FOREVER!**

You won't have to keep suffering in silence. Now you can look forward to...

- Fewer embarrassing bathroom runs
- Less stomach discomfort
- Better-balanced bowel movements
- Healthier joint function
- More radiant, youthful-looking skin
- Easier and smoother digestion
- More enjoyable eating experiences

...and more!

I can't wait to share this exciting breakthrough with you, {{customer.first_name}}. My team and I have worked hard to give you the most cutting-edge, natural, innovative health solutions that help you enjoy life to the fullest.

And I want you to be among the first to know, so be sure to check your inbox this Saturday for the **BIG ANNOUNCEMENT!**

Sending you my big Italian kiss,
