

Comprehensive Character Model Availability List

These are in no particular order, and this list is incomplete and being updated as time goes by/I have the time.

Models are sourced from all over the place, but you can also check the [Source Filmmaker Workshop](#) and [SFMLab](#) for models that might not be on this list.

You may also now send me a suggestion for a model or models that I don't have on this list using this form: <https://forms.gle/B4es4B5ED8YbzWc97>

Should be a given that you can commission me for both SFW and NSFW pics, so basically everything "important" for an idea is listed here (IE: Male and Female characters, specific props/vehicles, etc).

Some models have a handful of versions, but I just listed the ones that are most prominent/specific. Also in no particular, unified sorting method.

I considered adding links to each character that goes to their model page, or an image, but that's another ton of work on top of this already being a ton of work, so it may be better to just ask me what they look like if you're interested.

It should also be of note that I won't make any content with any characters I list that would violate [my own commission policies](#).

And, yeah, this list is really long.

So you might want to use ctrl+f to search for names.
