At The Meat Block and Haen Meat Packing we sell our beef by the  $\frac{1}{2}$ , Split  $\frac{1}{2}$  (which is a  $\frac{1}{4}$ ) Front  $\frac{1}{4}$  or Hind  $\frac{1}{4}$ .

**A  $\frac{1}{2}$  of beef is \$5.99 lb** and the average hanging weight is 400#. There is about a 40% cutting loss per  $\frac{1}{2}$ .

A  $\frac{1}{2}$  beef approximately consists of:

|                    |                         |                                                  |
|--------------------|-------------------------|--------------------------------------------------|
| Chuck Roast        | 12-16                   |                                                  |
| Ribeye Steaks      | 12-14                   | or Boneless or Bone In Prime Rib                 |
| T-Bone Steaks      | 11-16                   |                                                  |
| Porterhouse Steaks | 4-5                     |                                                  |
| Sirloin Steaks     | 7-10                    |                                                  |
| Round Steaks       | 8-10                    |                                                  |
| Rump Roast         | 2                       |                                                  |
| Soup Bones         | 4 packs with 2 per pack |                                                  |
| Stew Meat          | 6-8#                    |                                                  |
| Hamburger          | 60-80#                  | Beef Patties available at \$1.00 lb extra charge |

**A Split  $\frac{1}{2}$  of beef is \$5.99 lb** and the average hanging weight is 200#. There is about a 40% cutting loss per  $\frac{1}{4}$ .

A Split  $\frac{1}{2}$  approximately consists of:

|                    |                         |                                                  |
|--------------------|-------------------------|--------------------------------------------------|
| Chuck Roast        | 6-8                     |                                                  |
| Ribeye Steaks      | 6-7                     | or Boneless or Bone In Prime Rib                 |
| T-Bone Steaks      | 6-8                     |                                                  |
| Porterhouse Steaks | 2-3                     |                                                  |
| Sirloin Steaks     | 4-5                     |                                                  |
| Round Steaks       | 4-5                     |                                                  |
| Rump Roast         | 1                       |                                                  |
| Soup Bones         | 2 packs with 2 per pack |                                                  |
| Stew Meat          | 3-4#                    |                                                  |
| Hamburger          | 30-40#                  | Beef Patties available at \$1.00 lb extra charge |

**A Front  $\frac{1}{4}$  of beef is \$5.89 lb** and the average hanging weight is 200#. There is about a 40% cutting loss per  $\frac{1}{4}$ .

A Front  $\frac{1}{4}$  approximately consists of:

|               |                         |                                                  |
|---------------|-------------------------|--------------------------------------------------|
| Chuck Roast   | 12-16                   |                                                  |
| Ribeye Steaks | 12-14                   | or Boneless or Bone In Prime Rib                 |
| Soup Bones    | 2 packs with 2 per pack |                                                  |
| Stew Meat     | 3-4#                    |                                                  |
| Hamburger     | 25-30#                  | Beef Patties available at \$1.00 lb extra charge |

**A Hind  $\frac{1}{4}$  of beef is \$6.59 lb** and the average hanging weight is 200#. There is about a 40% cutting loss per  $\frac{1}{4}$ .

A Hind  $\frac{1}{4}$  approximately consists of:

|                    |                         |                                                  |
|--------------------|-------------------------|--------------------------------------------------|
| T-Bone Steaks      | 11-16                   |                                                  |
| Porterhouse Steaks | 4-5                     |                                                  |
| Sirloin Steaks     | 7-10                    |                                                  |
| Round Steaks       | 8-10                    |                                                  |
| Rump Roast         | 2                       |                                                  |
| Soup Bones         | 2 packs with 2 per pack |                                                  |
| Stew Meat          | 3-4#                    |                                                  |
| Hamburger          | 20-25#                  | Beef Patties available at \$1.00 lb extra charge |
