2025 CHRISTMAS WREATH Sales Incentives

Introduction

Wreath Sales have historically been the sole fundraising activity for Scout 469. The success of this fund raiser has traditionally provided enough money to fund the majority of troop activities throughout the year. By doing this, most events only require a small food allowance to be paid.

Wreath Sales Expectations

- Each Scout is expected to put forth their best effort in the annual wreath sales fundraiser.
- Each Scout is encouraged to sell at least \$500.00 of product as that is what it takes profit wise for our troop to provide the programming that we do. For each campout, the troop covers the camping, transportation and general supply fees. All of the supplies needed at the meetings and other events are covered by the troop as well.
- Parents should provide encouragement and support to help your child to meet this sales goal. Your child should make an honest attempt to reach the \$500.00 goal. Selling wreaths can assist your child in earning their Salesmanship and/or Communication merit badges as well as funding hundreds of dollars' worth of activities and adventures in the coming year.

Wreath Sales Incentives

There are 2 separate sales incentives for the scouts in Troop 469 who sell wreaths each year. Each incentive can be earned every year, based on the total sales volume. To qualify for each incentive, the scout must sell at least \$250.00 or \$500.00 worth of product depending on the incentive. The incentives are described on the next page.

To encourage an early start, we offer cash bonuses based on the total sales made during the first half of the sale. We are continuing with the graduated cash payout scale that has been used in the past.
