

We would like to thank our amazing school counselor, Mrs. Franklin, for always supporting and caring for our students. The students did a great job letting her know how much she meant to us! Happy School Counselors Week Mrs. Franklin!

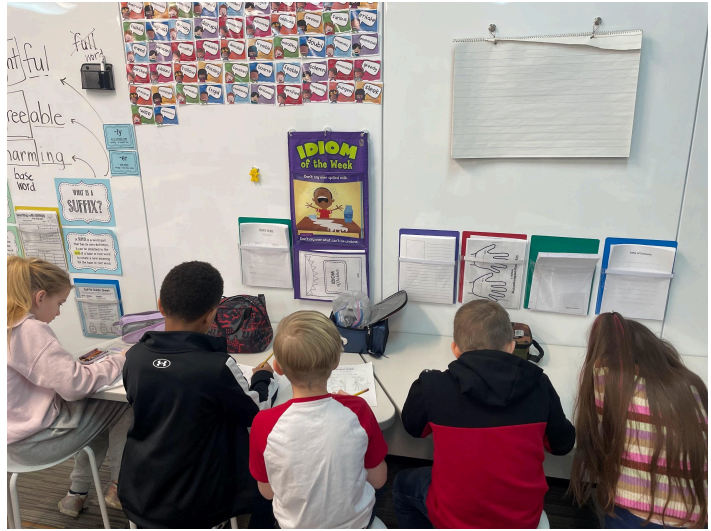

3 Purple:

Students from 8 Green partnered up with students in 3 Purple for their annual Fairytale Writing Project. Our third graders were interviewed by their 8th grade partners. Those middle school students will be creating fairy tales starring our third graders! We cannot wait to meet back together this spring to share their stories together!

Students in Mrs. Burkhardt's room working hard during our studio intervention time!

4 Green:

Mrs. Kujawa's science classes have been busy researching, designing and constructing bridges. It is almost time to test the bridges to see if they could withstand a natural disaster which the students learned about earlier this year.
