

Register Ready Feature

In the past, any rider listed on a team roster could register once “rider registration” opened. As leagues and teams have grown, the need to control rider registration at the team level has become apparent. Many larger teams need to cap registration while other teams have additional school requirements that need to be met prior to allowing riders to register. Once “rider registration” is open at the league level, Register Ready allows teams to control when parents/guardians can access rider registration for their team. When activated, a rider must be marked Register Ready in order for a parent/guardian to access rider registration. If a rider is not marked Register Ready the parent/guardian will be prevented from registering and will instead see a caution banner that says: "Please reach out to your Head Coach or Team Director to request access to Rider Registration."

When this feature is active for a team all returning riders and all newly invited riders will default to NOT Register Ready, meaning the parents will be unable to access rider registration until they are marked as YES.

Register Ready is located on the team dashboard and is only visible to Team Directors/Head Coach and League Administrators. To access this feature, navigate to the team dashboard and scroll down to the Riders section. The Register Ready link is located in new blue Options at the top of the rider roster.

Register Ready Feature

Recompute Practice Ready

Invite New Riders

Re-invite Riders to the New Season

1.

From the Options button select Register Ready - You will navigate to a new page.
2.

To turn on the feature, Click Require Register Ready.
3.

A list of riders that have not yet registered will be displayed. Select riders one at a time by clicking each box next to their name or click Register Ready All to choose all riders at once. Note, if you choose Register Ready All you will need to manually deselect any rider you do not want marked register ready.
4.

Scroll to the bottom and click Update Riders to save your changes.
5.

Double check your work by looking at the Register Ready column on the team dashboard. If it says YES the rider will be allowed to register. If it says NO the rider will be blocked from registration until you grant access.

RIDER NAME	REGISTER READY	PRACTICE READY	CATEGORY	GRADE	RACE PLATE #	UPCOMING PAID EVENTS	TTC HOURS
COLLIN MALCOM	✗	✗	-	-	-	0	-

6.

To turn off Register Ready at any time, click Register Ready to access the feature
7.

Click Stop Requiring Register Ready.

REGISTER READY

Riders are currently required to be "register ready" before starting registration.

This feature allows the TD/HC to control when an invited Rider is allowed to access registration. This feature must be turned on to work. When activated, you will see boxes next to all of your invited riders. Click All to mark all riders Register Ready at once, or click each box individually to mark riders Register Ready one at a time. If an invited rider is not marked Register Ready, then a parent cannot access rider registration. Instead they see a caution banner that says: "Ready for the season? Contact your Head Coach to Register"
