

2026 New Year, New Beginning

Hi everyone hows yall doing??

Okay I just wanted to briefly talk about the current situation of the mod and share some thoughts of mine Ive had since Demo was release. I havent really talked about the future of the mod—what were going to do next and stuff like that and i think now is a good time to start.

Since the demo was released the project has been on pause, Im now trying to re-active it, The reason it was on hold is cuz I had a lot of real life issues that i needed to focus on before the mod but doing a bit better now. maybe someday Ill be able to explain it in more detail.

At the moment I want to upload some updates that i will not go into detail rn but Ill release them as soon as we can get em done so keep an eye out!!

*-ink bowser teaser by myself.*

As for how the demo was received for such a short demo with only two acts. I felt a lot of support and appreciation from all of you It honestly makes me a bit sad because I wanted to give more and I hope Ill be able to fulfill that in the future and I also want to say thank you for almost reaching 100K on the lul gamingg channel!

*-Upcoming Omega by Pscripzone*

Weve also opened a community server in case youd like to see more teasers or updates about the mod and stuff like thatI wanted to take this opportunity to say we are “help wanted.” Since were reviving the project were looking for new people to join the team. Were mainly looking for composers and background artists (frfrfr) but you can apply even if you have other skills as well

Thank u a lot again and I hope yall have a happy 2026!!
