

Install and Use Google Extensions

Google Extensions are available in the [Chrome Web store](#).

Once in the Web Store, search for the Extension you wish to add.

 chrome web store

 Search the store

Click on the extension you want to install in the list of search results.

On the extension description page click 'Add to Chrome' in the top right.

Add to Chrome

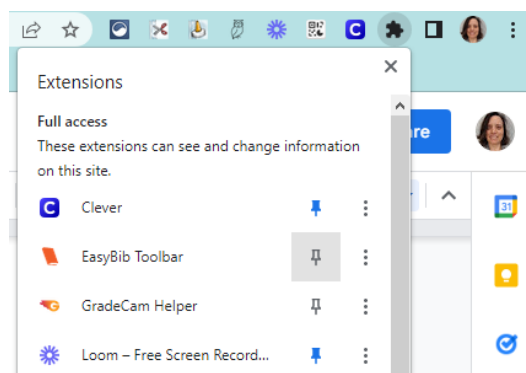

In the pop-up select 'Add extension'.

Google Extensions will appear in the puzzle piece to the right of the URL bar in Google Chrome.

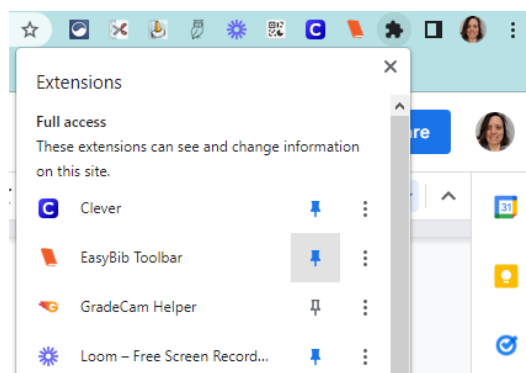

Extension can be pinned to (made visible on) the Extension bar from within the puzzle piece, for easier access and use.

The push pin will be outlined in gray if it is only available in the puzzle piece menu.

The push pin will be blue if it is available in the extension bar.

To change the viewing of an individual extension, click on the push pin to the right of the extension name in the puzzle piece menu.

Each extension has its own commands for using or starting the extension. Some will have a menu that opens up while others will run as soon as you click on it in the menu bar. You will have to learn each extension's start option individually.
