2020 Sept 9 FHIR | PLIR Squad Meeting

Attendees:
Christina
Bett
Daniel
Jen
Casey
Daniel
Mozzy
Piotr
Ian

Agenda:
- Dev updates
  - Ian
    - Still waiting on a few integration tsts before module release
    - Writing test for diagnostic report and reviewing a few other things
  - Bett
    - No updates
  - Piotr
    - FHIR analytics - updated the FHIR analytics github
- FHIR connectathon
  - Ian and Bett will be attending
  - What could we get out of it?
  - IPS track caught our attention

- PLIR
  - Thinking about the next steps around the design forum of PLIR
  - Do we have a clear idea of the questions we need to talk through?
  - A call with mekom to discuss the debezium approach
    - Why move to debezium
      - It moves the processing from inside OMRS to outside OMRS
      - Aligns with where the analytics squad is heading
      - The atomfeed approach has issues - it only captures hibernate-just changes made through the application
    - There is a PR for the debezium work
  - Mozzy could sketch out - maybe diagram the approach
