

The following rules are kept in place for the Monday Night Men's League. Both come from the previous rules under section 4 "Men's Traditional Leagues":

2. At the beginning of each curling season, as long as there are willing, qualified and approved applicants, the last place skip(s) from the previous season may be replaced by these applicants or previous skips wishing to return. If, in any league, there are 6 teams or fewer, one skip may be moved down. If there are 7 to 9 teams, two skips may be moved down. If there are 10 or 11 teams, then three skips may be moved down. If there are 12 or more teams, then four skips may be moved down.

3. A skip may replace an absent player with a player of the same rank or lower who may play that position or any lower position. The skip may replace the absent player with a player no more than one position (rank) higher, who then **MUST** play lead. If the skip is the absentee, a skip may be chosen as a substitute, but the vice-skip **MUST** move up and the substitute must play at the vice-skip or lower position. If the skip AND vice-skip are both absent, a skip and vice-skip may be chosen and one of these substitutes may play in the skip position, but one of these subs must play in the lead position. In all of the above, the substitute's rank will be defined as that player's highest regular ranking in the same type of competition. If the substitute does not play in a league of the same type, their rank will be considered the position they would likely have played in this league as ranked by the Men's Committee.

Rule #3 regarding subbing is best summarized by the chart attached (see Tuesday league chart for now, will be edited to have Monday language).

		Substitute's Position in Tuesday Women's League*		
		Skip	Vice	Second or Lead (Front End)
Player Out	Skip	Yes, but must play Vice or Lower	Yes, can play Skip or Lower	Yes, can play Skip or Lower
	Vice	Yes, but must play Second or Lower	Yes, can play Vice or Lower	Yes, can play Vice or Lower
	Second	NO	Yes, but must play Lead	Yes, can play Second or Lower
	Lead	NO	NO	Yes, but must play Lead

Special case: If both Skip and Vice are absent, any pair of skips and/or vices may be chosen; one can play Skip, the other **MUST** play Lead.

*A substitute's position is their position in the League or as assigned by League Coordinator and Women's Committee for non-League players

New rules as of September 2026:

Substitutes

- For a team's game to count, they must have at least 3 curlers and either:
 - Two out of their original roster curlers must play, or...
 - The skip must play.
- As always the replacement players must meet the existing substitute rules.
- If these conditions are not met, the game is officially a forfeit, and the opposing team is credited with a win.
- If both teams fail to field an official team, the game will be considered a tie.

Ties

- If a game ends in a tie, a single extra end will be played. The winner of the extra end wins the game. If the extra end is blanked, the team without hammer in the extra end is awarded the win.

5U Teams

- 5U curlers are eligible to submit a full team to participate in Monday Night Men's League. Each team must be approved by the Men's Committee on a case-by-case basis.
