INTRODUCTION

This section of the research contains the background, research problems, summaries of previous relevant studies, the gap of knowledge, and research objectives. This will reveal the state of the art, its originality, APA style with a single space. Example: (Mukti, 2022), (Fatim, 2022) (Arinal et al., 2022).

Communautaire: Journal of Community Service is published by Al-Qalam Institute, Probolinggo, East Java. This journal publishes research and community service results carried out by practitioners, teachers, lecturers, and researchers. The focus and scope of this journal include research results and services to the community in all aspects, including education, economy, society, culture, language, health, technology, law, tourism, etc.

The article submitted is of the author's original work that is plagiarism-free, and neither of which has been previously published in other scholarly journals or books. Articles published in this journal must comply with the article format, which is the style of this journal. Written in Palatino Linotype 12, with a single space.

METHOD

The method describes research design, population, and sample (research objectives), data collection techniques, and data analysis techniques.

RESULT AND DISCUSSION
Result

Researchers need to inform several important (original) field data obtained from interviews, observations, questionnaires, surveys, documents, and other data collection techniques. The findings are presented in full and are related to the pre-determined scope of research. Findings can be supplemented with tables, graphs, and/or diagrams. Tables and figures are numbered and titled. Example:

Table : 1 Table title should be placed at the top

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data

Pictures, graphs, charts, schemes, or diagrams are numbered consecutively and the title below, with Book Antiqua 12;

Figure 1 : Lecturer Quality Coaching

The result of data analysis is explained correctly in the article. The discussion part logically explains the findings, associated with the relevant sources.

Discussion

The discussion section is the core of the article, where authors interpret and explain the meaning of their research findings rather than simply restating the results. Authors should connect the findings to the research objectives, compare them with previous studies, and highlight the contribution of the research to the field of Islamic Education Management. This section may also include theoretical and practical implications, as well as research limitations to provide opportunities for future studies.

CONCLUSION

The conclusion contains the short summary of the findings and discussion, presented briefly, narrative, and conceptual. Avoid using bullet and numbering.

The conclusion and recommendation of the author are given in this

section and are consistent in using the term "Conclusion". The conclusion of the research should serve the urgent purposes of the study within this section. This can be followed by suggesting the relevant future studies.
