

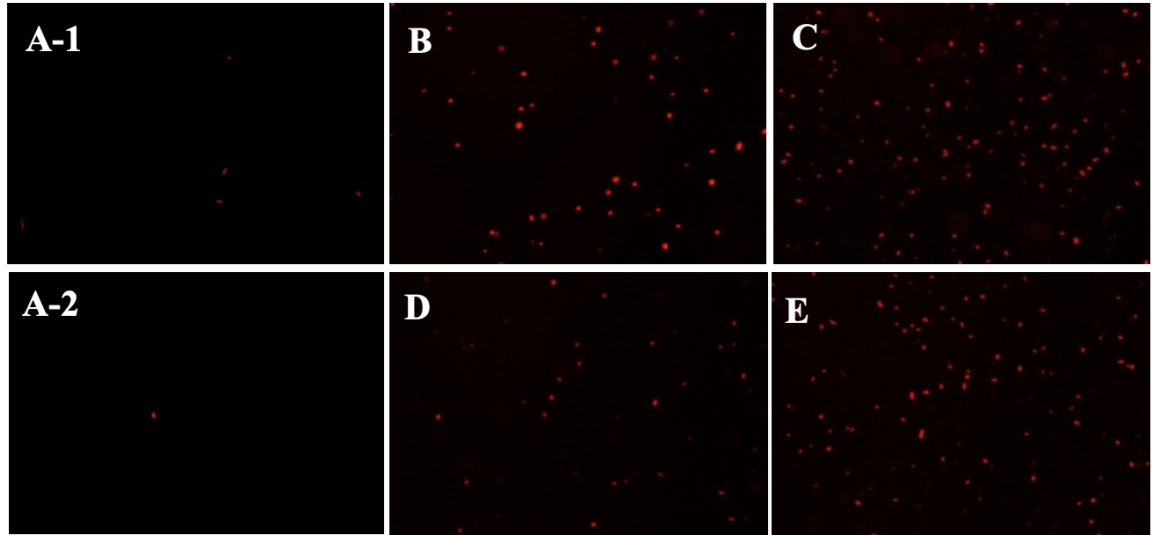

Figure 5. The effect of D-ESP and D-GSP on the cell membrane permeability of ETEC K88 under a fluorescent microscope (800×): (A-1,A-2) the control groups; (B) ETEC K88 treated with a 1MBC concentration of D-ESP; (C) ETEC K88 treated with a 2MBC concentration of D-ESP; (D) ETEC K88 treated with a 1MIC concentration of D-GSP; and (E) ETEC K88 treated with a 2MIC concentration of D-ESP.
